

FlexTone[®]

EMS & TENS

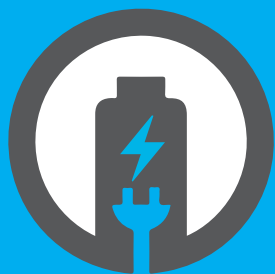

Pro 16

TENS+EMS

= PAIN RELIEF = MUSCLE RECOVERY

NO PRESCRIPTION NEEDED

- **FDA OTC CLEARED • EMS+TENS COMBO**
- **16 PROGRAMS • 2 CHANNELS • 4 PADS**

USB RECHARGEABLE

RETAIL READY \$99⁰⁰

The Pro 16 ships to you retail ready with an Attractive color box, AC wall adapter, USB cable, 4 electrodes, Ear clip, docking station, and manual.

BODY IQ

Body IQ is the world's easiest and most simple EMS and TENS treatment available. This Cutting edge technology allows the user to simply select any body part for treatment.

MULTI CHANNEL

Unlike other, less versatile TENS and EMS devices, the Pro 16 supports 2 fully powered channels with 4 pads, creating a creating a no-compromise multi-channel EMS and TENS experience.

ILLUMINATED

One of the most important factors of the Pro 16 is the "ease of use". That is why we chose a blue backlight LCD for crystal clear functionality.

VERSATILITY

OSTEOARTHRITIS • FIBROMYALGIA • TENDINITIS • BURSITIS

PAIN

STRENGTH

RECOVERY

ABOUT THE PRO 16

WHAT'S INCLUDED:

(1) TENS & EMS combination device. (2) pairs of 2 ½" snap-on adhesive electrode pads with leads; (1) Set of USB cable connector and adapter; (1) docking station for preservation of pads when not in use; (1) Pad placement chart; (1) instruction manual.

EASY TO USE:

Simply plug electrode lines into the unit and place the pads on the area to be treated (such as your shoulder). Power on the unit. Select a desired program from the 16 available which can be adjusted between 10 and 60 minutes. The unit provides two separate channels, so you may treat two separate muscle groups simultaneously; Simply change the channels by using the A/B shift button.

NATURAL PAIN RELIEF:

Transcutaneous Electrical Nerve Stimulation (TENS) technology has been used by doctors for more than 30 years. Gentle and continuous electrical stimulation triggers the body's natural endorphin response to block and relieve pain, as well as stimulate the regeneration of tissues; all without the use of any drugs or chemicals.

PORTABLE:

Our compact unit weighs less than 1/10th of a pound. The Pro 16 is re-chargeable (USB cable and AC adapter are included), and can be taken and operated virtually anywhere. This means the therapeutic and healing powers of the Pro 16 are always at your fingertips!
